## IMPORTANT NOTICE

Our boys want to go to the Fair, and they say they want to go on Thursday, we suppose because there must be a football game or something, like that on that day, and we always try to encourage them to go off occasionally. And then, too, they have been faithful and we are running with a small force in number, but large in work, and we would like for them to have an outing. Now this is to say that the next issue of The Herald and News will be printed Wednesday night and mailed out Thursday morning instead of Friday morning.

Advertisers and correspondents will please take notice that the office will be closed on Thursday and no work done on that day and all ads for the next issue must be in the office on Wednesday and all communications on or before that day.

The circulation campaign man will be on his job and will see contestants or subscribers in his office upstairs over The Herald and News office.

We think every citizen who can should spend one day at the State Fair. It is a great reunion of the people of South Carolina.

The city of Anderson has passed some traffic ordinances. Newberry badly needs one, and then it should be enforced. Turning the corners of our narrow streets is very dangerous at the rate of speed maintained by some of our auto drivers, unless there was some regulation to keep to the right and then that regulation strictly observed and enforced.

## TAX NOTICE

The books for the collection of state and county taxes will be open from October 15th, 1916, to December 31st, 1916.

Don't you know that this is the year to store cotton to make money? Last year we had to build an extra warehouse to accommodate our customers. Now we have plenty of room. We have not half as much cotton on storage now as we had this time last year. This, we are satisfied, is the case everywhere. We have more storage room than we would like for our farmer friends to have---which will make them money. We appreciate all the weighing and storing our friends have given us. We ask a good share of your unsold cotton to weigh and store. Our Warehouse Receipts are as good security as you need. All our Banks are anxious to get them. Store your cotton in the Farmers Warehouse, and make money.

This drawing for the cut was made when cotton was about 15c. Now it is much higher.

John I. H. Aull, our weigher, will be pleased to see you driving to our platform.
